ReqGuard AI Report

Software Requirements Analysis Report

Total Requirements: 19

Ambiguous Requirements: 8

Good Requirements: 11

Average Quality Score: 92

Requirement Analysis

REQ-001

Requirement: Software Requirement Specification (SRS)

Ambiguity: No ambiguity detected.

Readability Score: 80/100

Requirement Type: Non-Functional

REQ-002

Requirement: This document contains intentionally good and ambiguous requirements so that ReqGuard AI can

Ambiguous Words: good

Readability Score: 100/100

Requirement Type: Non-Functional

REQ-003

Requirement: The user shall register using a valid email address.

Ambiguity: No ambiguity detected.

Readability Score: 100/100

Requirement Type: Functional

REQ-004

Requirement: The user shall log in using an email and password.

Ambiguity: No ambiguity detected.

Readability Score: 100/100

Requirement Type: Security

REQ-005

Requirement: The system should respond quickly after the user logs in.

Ambiguous Words: quick, quickly

Readability Score: 100/100

Requirement Type: Non-Functional

REQ-006

Requirement: The admin shall manage user accounts.

Ambiguity: No ambiguity detected.

Readability Score: 100/100

Requirement Type: Functional

REQ-007

Requirement: The software should be user-friendly.

Ambiguous Words: user-friendly

Readability Score: 100/100

Requirement Type: Usability

REQ-008

Requirement: Passwords shall contain at least 8 characters.

Ambiguity: No ambiguity detected.

Readability Score: 90/100

Requirement Type: Security

REQ-009

Requirement: The application should load fast even during peak hours.

Ambiguous Words: fast

Readability Score: 100/100

Requirement Type: Non-Functional

REQ-010

Requirement: The system shall allow users to search books by title, author, or ISBN.

Ambiguity: No ambiguity detected.

Readability Score: 100/100

Requirement Type: Functional

REQ-011

Requirement: The database should be efficient while processing search requests.

Ambiguous Words: efficient

Readability Score: 100/100

Requirement Type: Non-Functional

REQ-012

Requirement: The system shall generate monthly borrowing reports.

Ambiguity: No ambiguity detected.

Readability Score: 100/100

Requirement Type: Functional

REQ-013

Requirement: The application shall support up to 1000 concurrent users.

Ambiguity: No ambiguity detected.

Readability Score: 100/100

Requirement Type: Performance

REQ-014

Requirement: The backup process should complete within 5 minutes.

Ambiguity: No ambiguity detected.

Readability Score: 100/100

Requirement Type: Performance

REQ-015

Requirement: The interface should be simple for first-time users.

Ambiguous Words: simple

Readability Score: 100/100

Requirement Type: Usability

REQ-016

Requirement: The system shall encrypt passwords using SHA-256 or stronger algorithms.

Ambiguity: No ambiguity detected.

Readability Score: 100/100

Requirement Type: Security

REQ-017

Requirement: The application should provide adequate security.

Ambiguous Words: adequate

Readability Score: 100/100

Requirement Type: Security

REQ-018

Requirement: Expected Ambiguous Words

Ambiguity: No ambiguity detected.

Readability Score: 90/100

Requirement Type: Non-Functional

REQ-019

Requirement: quickly, fast, user-friendly, efficient, simple, adequate

Ambiguous Words: fast, quick, quickly, efficient, simple, user-friendly, adequate

Readability Score: 100/100

Requirement Type: Usability
